

Center for Reproducible Biomodeling

Cell Modeling Seminar

Nov 6: Sheriff Rahuman

Project Leader, European Bioinformatics Inst
Leveraging public data repositories for cell modeling

Dec 4: Bill Hlavacek

Scientist, Los Alamos National Laboratory
Formalizing and leveraging qualitative observations of system behavior in model development

Jan 8: Stephen Larson

Co-founder, OpenWorm & CEO, MetaCELL
OpenWorm: building a whole animal simulation

Feb 5: Barbara Bakker

Professor, Univ Medical Center Groningen
Computational models and network-based drug design for metabolic disease

Mar 5: Andrew Hessel

CEO, Humane Genomics
GP-write and the future of engineering living organisms: a personal perspective

Details

Days: First Tuesday of each month

Time: 3pm EDT

Location: Online Zoom webinar

Format: 25-min presentation & 35-min Q&A

Archive: Online via YouTube
