

# Modeling Emergent Cellular Behavior in Cancer

Apply Here >>

Applications due December 7!!  
Follow @NCISysBio for updates

Are you interested in moving past cataloging cell types to understand how cell states interact to drive tumor behavior?

Join us for a 5-day Innovation Lab to meet new collaborators, ideate new projects, receive real-time feedback and contribute to where this important field is headed.

The virtual lab will be February 25-26 and March 1-2 and 5, 2021; participation via [application](#).  
Investigators with independent appointments are encouraged to apply.

Lab mentors: Manu Platt (Georgia Tech), Dana Pe'er (MSKCC), Zev Gartner (UCSF), Deborah Gordon (Stanford),  
Claire Tomlin (Berkeley)
