

2018-2019 Mid-Term Credibility Plan Review

PI: Boyce Griffith

#	Ten Simple Rules	REVIEWER #1		REVIEWER #2	
		Considered in the Credibility Plan?	Comments	Considered in the Credibility Plan?	Comments
1	Define context clearly	sufficient	well documented		
2	Use appropriate data	sufficient	well documented		
3	Evaluate within context	sufficient	well documented		
4	List limitations explicitly	sufficient	well documented		
5	Use version control	sufficient	well documented		
6	Document adequately	sufficient	well documented		
7	Disseminate broadly	sufficient	well documented		
8	Get independent reviews	sufficient	well documented, however I wonder if the MDDT team has the available resources to conduct an in-depth model review. They would probably prefer to review the results of a 3rd party, but this as an assumption on my part.		
9	Test competing implementations	sufficient	well documented		
10	Conform to standards	sufficient	well documented		

General Comments

Reviewer 1:

It is clear that significant thought and planning went into the development of this credibility plan. Looking forward to an update next year as the project matures.
